HARDING PREPARING FOR CLOSE OF CAMPAIGN

Marion, O., Oct. 22.—The last of his campaign swings outside of Marion, Ohio, today, Senator Harding took a half holiday today before starting work on the series of speeches he will deliver next week in principal cities of his home state.

After his arrival here late in the morning on the special train which carried him on his excursion into New York state, he looked in at his office for only a short while and then left for a forty mile motor ride to Mansfield and a game of golf.

It was the first time in several weeks that he had taken so complete a rest from the campaign. Although he appeared in perfect health, the strain of his speaking trip had left him tired and he said he wanted to refresh himself before taking up the home stretch of the campaign.

Tomorrow the nominee will begin preparation of his closing utterances, to be delivered on the last four nights of next week to meetings in Cleveland, Akron, Cincinnati and Columbus. No more trunk shows will be held here, and the four addresses may be the only ones he will deliver before election day.

It is considered entirely possible, however, that when he reaches Cleveland, he will run into numerous rear-platform gatherings, locally arranged, and will supplement his four main speeches with many short talks of the campaign.

The present plan is to make the Ohio circuit on a special train, not returning to Marion until Sunday. His managers consider that such a trip, which would mean an extensive rear-platform program.

COX TELEGRAPHS ROOT, CHARGING MISREPRESENTATION

Newark, N. J., Oct. 22.—Charges that Ellis Root has misrepresented his league of nations position were reiterated by Governor Cox of Ohio in another telegram sent Mr. Root today during the democratic presidential campaign.

Making a second vigorous demand for a retraction by Mr. Root, the governor said, regarding Mr. Root's reply to the candidate's first telegram:

"You have again misrepresented my long discussion under the subject of Article 10 in which again by inference you are endeavoring either deliberately or through misunderstanding and lack of information, to present my position on the league of nations as a halfhearted one."

In this method and in more than a half dozen speeches today in his one day tour of New Jersey, Governor Cox reiterated that he would accept "helpful" reservations, and that tonight were visited by the governor.

Governor Cox's telegram today to Mr. Root read:

"Honorable Ellis Root New York City. I have your telegram of October 21st in reply to mine of October 20th in which I called attention to your statement in your address in New York City when you said, Mr. Cox declared that he will maintain upon the treaty just as Mr. Root's statement was. I respectfully asked of you a retraction of your untrue statement. You have apparently mistaken to correct a serious error of mine and to misrepresent my position on the league of nations."

"In your reply to me you have entered upon a long dissertation upon the subject of Article 10 in which again by inference you are endeavoring either deliberately or through misunderstanding and lack of information, to present my position on the league of nations as a halfhearted one. According to the fact that your misstatement was based upon lack of information, I referred you to the daily report of my speeches in newspapers and magazines. I have already said that I favored the Hitchcock reservations and also that I would accept reservations from any source offered sincerely and that I would not formally, let me call your attention to the fourth of the Hitchcock reservations in reference to Article 10. That the advice mentioned in Article X of the covenant of the league which the council give to the member nations as to the employment of their naval and military forces is merely advice which each member nation is free to accept or reject according to the conscience and judgment of its own citizens and government and that the United States, this advice can only be accepted by action of the congress at the time in being, congress alone under the Constitution of the United States having the power to declare war."

Now, Mr. Root, I have asked you a plain question. We are both assumed to understand the meaning of words.

JUDGE LANDIS GETS A THREATENING NOTE

Indianapolis, Ind., Oct. 22.—Federal Judge K. T. Landis received an anonymous note last night threatening him if he continued his attacks on the radical movement in America.

The note, unsigned typewritten, on business stationery, was addressed to him at his hotel and was delivered by mail. It said:

"To Judge K. M. Landis, — Hotel, Indianapolis:

"For the last time you are warned to keep your mouth shut concerning charges that I am a communist. If you do not, your movements in speeches at Chicago and other towns in which you have spoken."

Judge Landis in referring to the note said:

"My sole hope at this hour is that I may live out my life in full thirty years. So that I may fight the treasonable crowd of men who planned and supported the St. Louis platform of the socialist party. The socialists did not omit vital election issues. Both the government, and I intend to omit no opportunity of calling it to the attention of the people."

Judge Landis, in addressing the Indiana state convention of school teachers today, criticized both Senator Harding and Governor Cox for what he termed their evasion of vital election issues. Both the democratic and the republican parties, Judge Landis added, took indefinite stands in their platforms regarding important questions.

The only specific complaint against the candidates made by Judge Landis was that neither had said what he will do as affecting legislation that will give life to the prohibition amendment."

GOMPERS ATTACKS COOLIDGE ON BOSTON POLICE STRIKE

Winnington, Del., Oct. 22.—An attack on Governor Coolidge's "prohibition" presidential nominee, based on his actions in the Boston police strike of 1919, was made here tonight by Samuel Gompers, president of the American Federation of Labor. Mr. Gompers said, in an address, that after the policemen had left their posts "Governor Coolidge was a crime against civilization."

"If the action of the Boston police was a crime against civilization," what terms can describe the action or inaction of Governor Coolidge and his police commissioner? Mr. Gompers asked. "Who else but a lawbreaker could make such a campaign of law and order upon such a record of cunning treachery and deception?"

"There is no right to strike against the public safety by anybody, anywhere, any time," he (Governor Coolidge) bombastically shouts after having aided and abetted, counseled and advised one of the most vicious wars against the working community ever allowed to go uninvestigated and unpunished."

"Imagine this contingency. The possible election of Senator Harding to the presidency and a vacancy for any cause occurring, and Coolidge, the police baiter, the agent provocateur, becoming president of the United States."

Commissioner Curtis, Mr. Gompers said, "after provoking the strike decided to withhold all police protection until the election of Senator Harding. He would be completely at the mercy of the lawless element for over 14 hours there by causing a revolution of public opinion, and causing the nation to believe that the police had been abandoned by the police."

Decision by the Public Utilities Commission Makes the Order Effective November 1.

Hartford, Conn., Oct. 22.—The public utilities commission, in an order made public tonight, grants the petition of the Connecticut company for a flat ten cent fare rate on its trolley lines, instead of the seven cent fare now in force. The order is to take effect on Nov. 1.

Higgins, chairman, and Joseph W. Alsop, appended to the order is a dissenting opinion by Charles S. Howell, the third member of the commission.

Get the Most From Your Advertising

Advertising is one of the greatest forces in the world. It has accomplished purposes which no other agency has ever been capable of doing. The printed word reaches further, is more effective, brings things to pass more quickly and satisfactorily in almost every instance than the spoken message.

Every business that has made judicious use of advertising cannot say too much in its behalf. They know what they owe it and what dependence they place upon it.

Advertising gives them a salesmanship service which cannot otherwise be obtained. That service is increased in proportion to the circulation of the medium that carries the advertising. In Norwich and vicinity The Bulletin has a circulation which no other approaches. Its value for effective advertising cannot therefore be wisely disregarded.

In the past week the following matter has appeared in The Bulletin's columns for two cents a day:

MAYOR CLAIMS TRUSTS HAVE BUILT WALL AROUND NEW YORK

Disclosure Made in Investigation of the "Building Trust"—Ready to Suspend All Public Work Until It is Learned There is "Open Bidding For the Work"—Contracts For \$7,000,000 Worth of Work on New York County's Proposed Courthouse Have Been Rescinded—Labor-Contractor Combination is Stifling Construction work.

New York, Oct. 22.—(By The A. P.)—New York is ready to suspend all public works until it is learned if there is "open competition in bidding for the work."

This announcement was made here today by Mayor Hylan, when the joint legislative committee adjourned until November 4, after its counsel had asserted it had only scratched the surface in its investigation of the "building trust." Developments in the building situation came in a dramatic fashion this afternoon after Mayor Hylan had addressed a board of estimates advising that the "Building Trust" milk trust and the coal trust and other trusts have built a wall about New York greater than the wall of China.

While the legislative committee was quizzing in one chamber of the city hall, the board of estimates meeting in another, rescinded four contracts involving approximately \$7,000,000 worth of work on New York county's proposed courthouse. The mayor also authorized Commissioner of Accounts Hirschfeld to make searching investigation of all contracts for school houses.

"I want the people to know that they will be protected against men who are seeking by means of combinations and unfair practices to milk the people," explained the mayor.

While the legislative committee held a brief session today, Mayor Hylan, committee chairman, examined several witnesses regarding the activities of the alleged labor-contractor combination, which he asserted was stifling construction work in New York City.

Important developments were:

Refusal of Robert P. Brindell, president of the Building Trades Council, to testify in favor of the committee to refute testimony of Ephraim Levy and George Bucker regarding a bribe paid to alleged labor representatives.

Assertion by Mr. Untermyer that a widespread system of extortion was being practiced by unscrupulous labor leaders in connection with the building of public works.

Admission by one witness that he feared his business would be ruined by the withdrawal of labor if he answered all questions asked by the committee.

Testimony to the effect that upwards of 400 plumbing contractors in New York City were members of the "Building Trust."

When the witness said he was "tired" to see this thing through, Mr. Untermyer asked:

"But you don't want to be sacrificed on the altar of righteousness? Is that in breaking it up? The things you want broken up are the things that are making it. That if you are a union shop and you are not going to sacrifice me in the breaking of it?"

When the witness said he was "tired" to see this thing through, Mr. Untermyer asked:

"I will answer you truthfully, but I ask in all fairness as man to man not to sacrifice me on the altar."
